$25 VALUE!

ASR - ASYMMETRICAL REVERSE SERIES

Legendary, epic. An asymmetric freestyle and freeride board designed to excel everywhere. The different biomecho-sidecuts on the two sides of the board are tuned to the function of a frontside and backside turn. The nose and tail kick are modified so the turning radius of the sidecut continues after the board leaves the snow so the board carves up halfpipe walls instead of washing out on the transition. You can turn and launch at almost any angle in the pipe. These boards are equally at home in mogul fields, powder, ice, even the slalom course. Minimal Weight, Wood core and carbon-glass laminates. P.S. Remember the notch goes on the heel side. **Prices include System One Bindings.**

ABOUT PRO MODEL CHANGES

The pros are constantly updating and improving the graphics and shapes of their decks and t-shirts. There's definitely nothing stagnant about this skate business. When the pros come out with a new model, the one it replaces is no longer available to us. So wherever you see "Newest Model Not Shown" next to a photo, that means it changed after our photo deadline. No sweat, no obligation, just call us up for a description of the new improved model.

ABOUT DELIVERY

We will, in all cases, send your order out as promptly as possible. In-stock items are shipped within 24 hours from receipt of your order. UPS delivery should occur within two to eight working days, depending on your location. Express delivery is available at a small additional charge. Please ask your salesperson for details. You'll be notified by mail of any delays or backorders. Items ordered together may be shipped separately. Shipping to another address and some credit card verifications may cause delays. As always, we're here to answer your questions.

ABOUT SIZING

For many of our customers, the best clothing is somewhat near its mid-life crisis and well worn. No one is fond of stepping into stiff styles, so we keep this in mind when selecting our clothing. Most of our garments are prewashed, constructed to be soft, wearable and long-lasting to meet your demands. Because we represent a number of different manufacturers, sizes vary some, but remember, all the best skate clothes are oversized. So, when in doubt, take it baggy.

Our sales staff maintains a continually updated list of all our apparel in terms of sizes, material content, and washing instructions to help fit you right the first time. Listed below are some general guidelines to help you order the correct size merchandise:

HELMET SIZES:	SMALL	MEDIUM	LARGE
Hat Size	6¾ - ⅞	7⅛	7¼ - ⅜
Head Measurement	21½ - ½	21⅝ - 22¼	22⅝ - 23

For more accurate sizing, place hand down with gentle pressure. When in doubt buy a size larger.

AIRWALK

For the most hardcore skaters.
Sizes 5 through 13 (no 12-1/2).

NTS

"Not the same" . . .these shoes are not only different from other shoes but they're also different from each other . . .huh? Well, first they're a sturdy all suede upper with rubber toe and ollie protection. Then for extra support, the soles are raised at the arch and heel. But what really makes them different is that the ankle supports are slightly higher on the inside ankles. This gives you padded protection where it's needed while keeping flexibility.

Colors: "Phoenix" Forest Green, **#AIA-F**, "Hydra" Slate Blue **#AIA-G**, Juno" Yellow **#AIA-D**, "Zeus" Black **#AIA-E** . . .**$64.95**

PLUS

Whoa! Look at the blisters on those shoes. No they're not blisters. The full grain leather is molded directly over four specially designed pieces of resin (really tough plasticky stuff) in the ollie area. Double stitched sidewalls of extra rubber keep the top attached to the bottom. Speaking of the bottom . . .these things are extra flexible because of all the notches and angles cut into them. One slick street shoe.

Colors: "Factor" Blue/Grey **#AIA-I**, "Tangent" Tan w/Black Sole **#AIA-K**, "Matrix" Black **#AIA-J** . . .**$54.95**

1ONE

Check out these cool scoots. Airwalk calls them the "One" Series. The classic suede upper is double cable stitched to Airwalk's proven outsole. Ultra thin fiber insole for max flex. This is the one.

Colors: "Chance" Black/Red **#AIA-RA**,
"Access" Green/Tan **#AIA-RB**, . . .**$49.95**

DESERT BOOT

All suede leather upper with "sawtooth" sole and durable "stitchdown" construction.

Color: Black **#AIA-XC** . . .**$44.95**

SORRY

The Sorry Series is based on the combination of a newly derived grippy gum rubber outsole compound, a new construction method maximizing flexibility, and upper patterns with the performance features required for today's skating. The Sorry Mid makes use of an independently attached ollie area, doubling the thickness of the major wear points and maintaining comfort and upper flexibility. The Sorry Lo features a one piece suede toe guard with a double strength suede ollie area on a flat topline skate shoe. The Sorry Series shoes all use the double cable-stitched outsole and a comfortable fully molded sock liner, making this series the ultimate in flexible skate/casual shoes.
